

✓ **SCREEN YOUTH**
✓ **PREPARE SCHOOLS**
✓ **KEEP YOUNG HEARTS BEATING**

Do you know if your
child is **At Risk?**

♡♡ **We Need Your Help!** ♡♡

Three of our local school districts are ready to move forward with placing AEDs on campus. However, they do not have the funding. We need your help in making these school districts Heart Safe.

We Need 26 AEDs for LOCAL Schools!

Each AED costs \$1,495 - \$38,870.00.

**Our goal is to raise \$38,870.00 by
January 4, 2016.**

On October 10th, 2015
we screened **58 Kids**

We performed
11 Echocardiograms

We found
5 at Risk and 5 Defects!

Heart conditions diagnosed at the screening included Vasovagal Dysautonomia, Biventricular Hypertrophy, Bicuspid Aortic Valve, Left Ventricular Hypertrophy, Long QT Syndrome and Hypertrophic Cardiomyopathy

Together We Can Keep Young Hearts Beating!
